BlueLink Login Troubleshooting

I am getting “Login failed.”

To fix:

Please double check your BlueLink username and password. You may use the “Forgot your Username/Password” link to reset password if necessary.

I am getting “Authentication Error”

To fix:

This occurs because the BlueLink login page expired. There is a unique session key generated when the login page loads and it expires within about 20 minutes. To solve this, please always go back to https://bluelink.okcu.edu and click BlueLink from the top right corner.
I am getting “Authentication attempt failed”

I am using Safari on a Mac and getting a certificate error
To fix:

1. Go to Finder > Applications > Utilities > Keychain Access
2. Search for the name of the certificate(s) that showed up in the certificate window above and then delete them all.
3. Then restart Safari and try again.

I am getting “Session timeout occurred”.
To fix:

Please use the following instructions to clear browser cache.

Chrome
1. In the browser bar, enter:

   chrome://settings/clearBrowserData

2. Select the following:
   - Browsing history
   - Cookies and other site data
   - Cached images and files
From the "Time range" drop-down menu, you can choose the period of time for which you want to clear cached information. To clear your entire cache, select All time.

3. Click CLEAR DATA.
4. Exit/quit all browser windows and re-open the browser.

Firefox
1. From the History menu, select Clear Recent History.
   If the menu bar is hidden, press Alt to make it visible.
2. From the Time range to clear: drop-down menu, select the desired range; to clear your entire cache, select Everything.
3. Check all the items under History.
4. Click Clear Now.
5. Exit/quit all browser windows and re-open the browser.

Microsoft Edge
1. In the top right, click the Hub icon (looks like star with three horizontal lines).
2. Click the History icon (looks like a clock), and then select Clear history.
3. Select Browsing history, then Cookies and saved website data, and then Cached data and files. Click Clear.
4. After the "All Clear!" message appears, exit/quit all browser windows and re-open the browser.

Internet Explorer 11
Note: On January 12, 2016, [Microsoft ended support for Internet Explorer versions prior to version 11](http://example.com).
