BlueLink Login Troubleshooting

I am getting “Authentication failed! Try again.”

To fix:

Please double check your BlueLink username and password. You may use the “Forgot your Username/Password” link to reset password if necessary.

I am getting “Authentication Error”

To fix:

This occurs because the BlueLink login page expired. There is a unique session key generated when the login page loads and it expires within about 20 minutes. To solve this, please always go back to https://bluelink.okcu.edu and click BlueLink from the top right corner.
